Re: Invention: AMPLICON MELTING ANALYSIS WITH  
SATURATION DYES  
First Named Inventor: WITTWER, Carl T.  
Patent No.: 7,582,429  
Issued: September 1, 2009  
Serial No.: 10/531,966  
Filed: April 20, 2005  
Our Docket No.: P00950-US-01 (21932.0023)

**REQUEST FOR CERTIFICATE OF CORRECTION**

Pursuant to MPEP § 1481.01, please find enclosed a Certificate of Correction (PTO/SB/44) for the above-referenced patent ("the Patent"). Applicants respectfully submit that a mistake occurred, and request a Certificate of Correction to remedy this mistake. Applicants respectfully submit that issuance of a Certificate of Correction is appropriate because this is an error of consequence, and correction does not involve such changes in the Patent as would constitute new matter or would require reexamination.

**I. The Correction of Assignees' Names Should be Performed Through a Certificate of Correction.**

Applicants respectfully submit that a mistake in assignment has occurred on the cover page of the Patent, and should be corrected through a Certificate of Correction. While the University of Utah Research Foundation was added to form PTOL-85 as a designated Assignee, Idaho Technology, Inc. was One American Square | Suite 2900 | Indianapolis, IN 46282-0200 | P 317-236-2100 | F 317-236-2219  
INDIANAPOLIS | CHICAGO | DUPAGE COUNTY IL | WASHINGTON DC

inadvertently omitted as the second Assignee of record. According to 35 U.S.C. §255, "the Director may, upon payment of the required fee, issue a certificate of correction, if the correction does not involve such changes in the patent as would constitute new matter or would require reexamination. Further, any request for the issuance of an application in the name of the assignee submitted after the date of payment of the issue fee, and any request for a patent to be corrected to state the name of the assignee must:

1. state that the assignment was submitted for recordation as set forth in 37 CFR §3.11 before issuance of the patent;
2. include a request for a certificate of correction under 37 CFR §323 along with the fee set forth in 37 CFR § 1.20(a); and
3. include the processing fee set forth in 37 CFR §1.17(i).

*See* 37 CFR §3.81.

Applicants herewith comply with the requirements of 37 C.F.R. § 3.81, and 35 U.S.C. §255, and request a Certificate of Correction for the Patent to add Idaho Technology, Inc. as an assignee of the Patent. In compliance with the requirements for the Certificate of Correction, Applicants: confirm that the assignment to Idaho Technology, Inc. was submitted on November 21, 2003, well in advance of the issuance of the patent, request a certificate of correction, and submit fees under 37 CFR § 1.20(a) (\$100) and 37 CFR §1.17(i) (\$130). Accordingly, Applicants submit that all requirements for a Certificate of Correction have been met, and request the issuance of the Certificate of Correction to add Idaho Technology, Inc. as an assignee to the patent.

**CONCLUSION**

Applicants respectfully submit that the issuance of the Certificate of Correction is appropriate for the addition of Idaho Technology, Inc. as an assignee because all the requirements for the issuance of the Certificate of Correction have been met and the requested correction does not constitute new matter or require reexamination of the Patent. Accordingly, Applicants respectfully request that the Certificate of Correction be issued.

Applicants believe that payment herewith of two hundred and thirty dollars satisfies the required fees for the submission of this Request for Certification of Correction. However, in the event Applicants have inadvertently overlooked the need for the payment of an additional fee, Applicants conditionally petition therefor, and authorize any fee deficiency to be charged to deposit account 09-0007. When doing so, please reference our docket number P00950-US-01. Should there be any questions, Applicants respectfully request that the Examiner contact the undersigned at his or her convenience.

Respectfully submitted,

ICE MILLER LLP
